New Supervisor of Play Urges Municipal Grounds For Business Men.

the larger parks there are from 12 to the larger parks there are from 12 to 14 courts.

"The playground system of Scattle is under the park board aupervision. Exclusive of the termis courts there are 14 playgrounds for the population of 180,000. This year the city is taking up the idea of using the school yards also for public playgrounds and this will add \$4 school yeard playgrounds to the system. For the past year there was an aggregate attendance of 1,000,000 children at the 24 playgrounds.

School Grounds for Play.

I have only seen two of your schools so far, the Halley and the Vilas school. They have much larger school yards than the schools of Scattle and can be adapted admirably for school grounds. I am strongly in favor of the use of the school ground as the public playground for the neighborhood and for all children's playgrounds the proper supervision is much more important than equipment. "Saturday I shall make a survey of the city with superintendent H. J. Tighe and then formulate my plans. The first step is to plan the general outline of the use of each playground and appoint the supervisor for the eround. This of course will be done in connection with the school board. As soon as the supervisors have been connection with the school board.
